

# ...turning your interior renovation nightmares into a *dream come true!* Just ask Shannon Whitley.

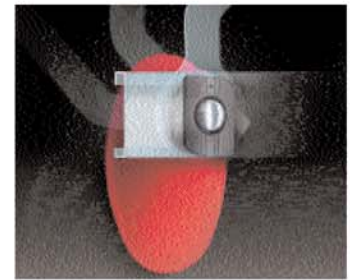

## ***Time savings...***

"It went up like a dream! We thought it would take a week to put them up, but it took 2 men only 2 days to install over 700 feet. We finished three days ahead of schedule, allowing us to catch up on other important preventative maintenance projects."

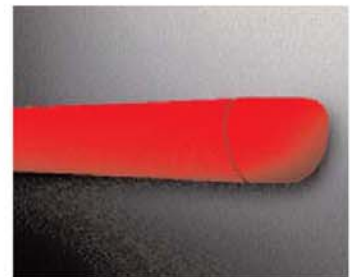

## ***Easy installation...***

"The *Quick-Lock* system made it considerably easy to install - with its simple assembly, wrench and quality construction. We needed very few tools to complete the job. Even my 13 year-old son could have put these up...that's how easy it was!"

## ***Comfort and appeal...***

"It fits your hand as if you were walking down the hallway with it. Besides, it was nice to see our residents smiling and saying 'we sure do love our new handrails'. It made us feel good, as if we did something real special for them."

## ***Return on investment...***

"It's a fantastic system...better than any other on the market. Once we realized how quick it was to put up, it became real easy for us to make the decision. This saved us a lot of time and money. We can't wait to do our next facility!"

Mr. Shannon Whitley is the Director of Environmental Services for Oak Manor Nursing Home in Columbus, GA. He purchased and installed our Acrovyn HRB-35 *Quick-Lock* Handrail system with his staff in July 2002.
